

# X2 series

Strong. Stylish. Smart.

The X2 series is the powerful range of HMI panels from Beijer Electronics. The X2 product families combine great design with strong performance to power your HMI solutions. Create smart integrated solutions boosted by iX HMI software.

# One family, one great design

X2 panels offer a slim, modern design. Consistent across the entire range, adding visual quality to your solution.

# All the performance you need

Power-efficient ARM9 processors all the way up to the latest quad core ARM Cortex-A9 processors deliver fast program execution and screen change. It gives you all the performance you need.

# Robust reliability

The robust die cast aluminum body offers great resistance to mechanical stress. We've redesigned the electronics and made other improvements to further enhance solid operation.

# Prepared for any environment

X2 panels operate in wide temperature ranges. They offer strong ingress protection and in addition, they hold all the certificates you need to perform in the field.

# **Control by BCS Tools**

BCS Tools is the CODESYS-based software platform enabling X2 to perform additional integrated IEC 61131-3 PLC functionality with safe and fast program execution.

# A simple path forward

It's easy to upgrade your existing iX HMI solution to the X2 series.

# 2 year warranty

We offer a two-year standard warranty for all operator panels in the X2 series.

Our X2 HMI panels are now IIoT ready by standard and fully prepared to enable you to move your machine data to the cloud.

# A match for every requirement

The X2 series matches almost every requirement and lets you choose from a powerful range of more than 50 models and additional options.

# X2 extreme

Rugged HMI panels for tough environments

Available in 7, 12 and 15 inches, all in 3 versions: Panel mount standard and high-performance versions, and fully sealed high-performance versions. All high-performance versions offer high brightness display and optional integrated CODESYS-based PLC functionality.

# X2 pro

High performance HMI panels for all automation needs

Available in 4, 7, 10, 12, 15 and 21 inches.

# X2 control

Integrated CODESYS-based control

# X2 web

with built-in HTML5 web client

X2 pro web is available in 7, 10 and 15 inches and X2 extreme web is available in 7, 12 and 15 inches.

# X2 base

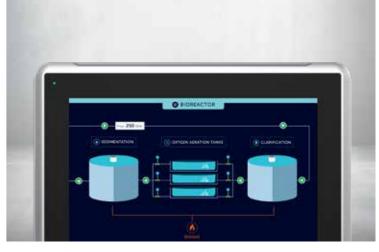

Cost-effective, full functionality HMI panels

Available in 5, 7 and 10 inches and in 7, 10, 15 inches high-performance versions.

# X2 marine

Built for life at sea

Available in 7 and 15 inches with optional high brightness display and integrated CODESYS-based PLC functionality.

# X2 base

New versions of cost-effective, full functionality HMI panels

The X2 base family is now updated with the new range of X2 base v2 HMIs offering improved performance, more display sizes and an additional range of high-performance HMIs. The X2 base v2 panels are cost-effective industrial HMIs with high-resolution touch-screens and modern design. The HMIs combine IP65 corrosion resistant plastic housing with the full version of the iX software, providing a cost-effective yet advanced HMI solution for small to medium applications.

X2 base v2 HMIs are available in 5, 7 and 10 inches and in 7, 10 and 15 inches high-performance versions.

The high-performance versions are scheduled for launch in 2021.

See page 20 for technical data.

# Features X2 base

#### Wide screen format

X2 panels offer wide screen format, designed to succeed the traditional 4:3 square aspect ratio.

# UL, CE, FCC and KCC certificates

The entire X2 range offers a strong standard certification with UL, CE,

FCC and KCC certificates.

# iX software – why you'll love our hardware

The iX software gives you smart

communication tools. iX combines top-class vector graphics and easyto-use functions that provide reliable operation, and almost limitless connectivity to your other equipment.

# Custom design or non-branded

Profile your brand or go for neutral. X2 panels offer custom

designed or non-branded front foils, as alternatives to the standard Beijer Electronics branded versions.

# Power efficient ARM8 processors

Power efficient ARM8 processor provides strong performance for

small and medium sized applications.

# Corrosion resistant plastic housing

Corrosion resistant plastic housing with IP65, NEMA 4X/12 and UL Type 4X/12 front.

# Operating temperature -10°C to +50°C

The -10°C to +50°C operating

temperature range satisfies the demands of most industries.

# All the communication ports you need

X2 base offers 1 × Ethernet, 4 × serial,

1 x USB as standard, securing ample communication with other equipment.

# X2 pro

# High performance HMI panels for all automation needs

X2 pro includes a range of high performance industrial panels designed for demanding applications. All with the high performance of powerful ARM Cortex-A9 processors, the latest screen technology and a wide range of connectivity options to cover all your automation needs.

X2 pro panels are available in 4, 7, 10, 12, 15 and 21 inches.

The X2 pro family additionally offers web HMIs perfect for enterprises and users who wants to utilize HTML5 web technologies in industrial environments, see page 16.

See page 22-23 for technical data.

# Features X2 pro

#### Wide screen format

X2 panels offer wide screen format, designed to succeed the traditional 4:3 square aspect ratio.

# UL, CE, FCC and KCC certificates\*

The entire X2 range offers a strong standard certification with UL, CE,

FCC and KCC certificates.

# iX software - why you'll love our hardware

The iX software gives you smart

communication tools. iX combines top-class vector graphics and easyto-use functions that provide reliable operation, and almost limitless connectivity to your other equipment.

# Custom design or non-branded

Profile your brand or go for neutral. X2 panels offer custom

designed or non-branded front foils, as alternatives to the standard Beijer Electronics branded versions.

# **Powerful ARM** Cortex-A9 processor

Powerful single or dual core ARM Cortex-A9 processor delivers

fast screen changes and program execution in demanding applications.

# Robust aluminum housing

Robust aluminum housing with IP65, NEMA 4X/12 and UL Type 4X/12

front. Resistant to direct rain, snow or wash-downs, dirt, grime and dust.

# Wide operating temperature -10°C to +60°C\*

The wide -10°C to +60°C operating

temperature range satisfies the demands of most industries.

## Marine certifications\*

The X2 panels meet extended classes of marine certifications not

normally carried by HMIs, making them suitable for all onboard locations.

# Internal CANopen and optional bus modules

It's easy to interface with controllers using

the internal CANopen bus or optional CiX CAN, Profibus or MPI modules.

# SD memory card

Card holder and USB connection are located behind the lid on the back of the panel for

smart memory expansion, project backup and application loading.

\*X2 pro 21 offers UL, CE and FCC and certificates, no marine certifications and a temperature range of 0°C to +50°C.

# X2 marine

# Built for life at sea

X2 marine offers user-friendly, reliable operation offshore, on ships and in other maritime applications. With black frame and nautical society certifications, X2 marine panels are suitable for mounting on the bridge, in the engine room and inside cabins. X2 marine panels are available with optional high brightness display and integrated CODESYS PLC functionality.

X2 marine panels are available in 7 and 15 inches with optional high brightness display and integrated CODESYS-based PLC functionality.

# Features X2 marine

# Wide screen format

X2 panels offer wide screen format, designed to succeed the traditional 4:3 square aspect ratio.

# UL. CE. FCC and **KCC** certificates

The entire X2 range offers a strong standard certification with

UL, CE, FCC and KCC certificates.

# iX software - why you'll love our hardware

The iX software gives you smart

communication tools. iX combines top-class vector graphics and easyto-use functions that provide reliable operation, and almost limitless connectivity to your other equipment.

# Custom design or non-branded

Profile your brand or go for neutral. X2 panels offer custom

designed or non-branded front foils, as alternatives to the standard Beijer Electronics branded versions.

# Powerful ARM Cortex-A9 processor

Powerful single, dual or quad core ARM Cortex-A9 processor

delivers fast screen changes and program execution in demanding applications.

# Robust aluminum housing

Robust aluminum housing with IP65, NEMA 4X/12 and UL Type 4X/12

front. Resistant to direct rain, snow or wash-downs, dirt, grime and dust.

# Wide operating temperature -10°C to +60°C

The wide -10° to +60°C operating

temperature range satisfies the demands of most industries.

# Marine certifications

The X2 panels meet extended classes of marine certifications not normally carried by HMIs,

making them suitable for all onboard locations.

# Internal CANopen and optional bus modules

It's easy to interface with controllers using

the internal CANopen bus or optional CiX CAN, Profibus or MPI modules.

# SD memory card

Card holder and USB connection are located behind the lid on the back of the panel

for smart memory expansion, project backup and application loading.

# Dimmable backlight

Comfortable and safe operation in high and low ambient light. Backlight is continuously

dimmable to very low brightness.

# **High brightness** display

Optional 1,000 cd/m<sup>2</sup> backlight provides excellent readability in

high ambient light levels such as sunlight.

# Add control by **BCS Tools**

BCS Tools is the CODESYSbased software platform enabling SC versions to

perform powerful integrated IEC 61131-3 PLC functionality. Just add remote I/Os for a scalable, cost-effective solution.

# **Built-in digital** outputs

X2 marine panels with high brightness option have built-in

digital outputs for direct connection of alarms, signal lights, etc.

#### Internal isolation

Internal isolation conforms to marine standards for both burst and surge immunity.

# X2 control

# Integrated CODESYS control

X2 control panels combine industrial HMI and CODESYS-based PLC functionality in the same compact hardware. Panels range from ultra-compact 4-inch to 15-inch panels designed for demanding applications. Add standard distributed I/Os and you'll get an elegant, scalable and cost-effective solution that's cutting-edge.

X2 control panels are available in 4, 7, 10, 12 and 15 inches.

See page 24-25 for technical data.

# Features X2 control

#### Wide screen format

X2 panels offer wide screen format, designed to succeed the traditional 4:3 square aspect ratio.

# UL. CE. FCC and **KCC** certificates

The entire X2 range offers a strong standard certification with

UL, CE, FCC and KCC certificates.

# iX software - why vou'll love our hardware

The iX software gives you smart

communication tools. iX combines top-class vector graphics and easyto-use functions that provide reliable operation, and almost limitless connectivity to your other equipment.

# Custom design or non-branded

Profile your brand or go for neutral. X2 panels offer custom

designed or non-branded front foils, as alternatives to the standard Beijer Electronics branded versions.

# **Powerful ARM** Cortex-A9 processor

Powerful dual or quad core ARM Cortex-A9 processor delivers

fast screen changes and program execution in demanding applications.

Robust aluminum housing with IP65, NEMA 4X/12

Resistant to direct rain, snow or washdowns, dirt, grime and dust.

# Wide operating temperature -10°C to +60° C

The wide -10°C to +60°C operating

temperature range satisfies the demands of most industries.

## **Marine certifications**

The X2 panels meet extended classes of marine certifications not normally carried by

HMIs, making them suitable for all onboard locations.

# Internal CANopen and optional bus modules

It's easy to interface with controllers using the internal

CANopen bus or optional CiX CAN, Profibus or MPI modules.

#### SD memory card

Card holder and USB connection are located behind the lid on the back of the panel

for smart memory expansion, project backup and application loading.

# 2 Ethernet ports as standard

Panels have two built-in Ethernet

ports as standard for communication with other equipment.

# **EtherCAT** as standard

X2 panels support communication with super-fast EtherCAT as standard.

# **Control by BCS Tools**

BCS Tools is the CODESYS-based software platform enabling X2 control to perform

powerful integrated IEC 61131-3 PLC functionality. Just add remote I/Os for a scalable, cost-effective solution.

# **Built-in digital** outputs

10, 12 and 15 inch panels have built-in digital outputs for direct

connection of alarms, signal lights, etc.

## Configuration freedom

Applications remain elegantly slim with integrated control in the

panel. Add remote I/Os to fit your needs, and select between three major fieldbuses - EtherCAT, Modbus RTU and Modbus TCP.

# Less risk of error with one system

Two separate PLC and HMI systems mean twice the risk of error. X2 control

changes all that. Simply configure your system with WARP and you're done. It's never been easier to create applications.

and UL Type 4X/12 front.

# X2 extreme

# Rugged HMI panels for tough environments

X2 extreme panels are certified by all major classification societies. Designed to perform in rugged outdoor environments and in hazardous areas where gases, vapors and dust are present. Extended environmental capabilities include operating temperatures from -30°C to +70°C, high vibrations and high-pressure wash-downs.

X2 extreme panels are available in 7, 12 and 15 inches, all in 3 versions: Panel mount standard and high-performance versions, and fully sealed high-performance versions. All high-performance versions offer high brightness display and optional integrated CODESYS-based PLC functionality.

The X2 extreme family additionally offers web HMIs perfect for enterprises and users who wants to utilize HTML5 web technologies in industrial environments, see page 16.

See page 26-29 for technical data.

# Features X2 extreme

#### Wide screen format

X2 panels offer wide screen format, designed to succeed the traditional 4:3 square aspect ratio.

# UL. CE. FCC and **KCC** certificates

The entire X2 range offers a strong standard certification with UL. CE.

FCC and KCC certificates.

# iX software - why you'll love our hardware

The iX software gives you smart

communication tools. iX combines top-class vector graphics and easyto-use functions that provide reliable operation, and almost limitless connectivity to your other equipment.

## Custom design or non-branded

Profile your brand or go for neutral. X2 panels offer custom

designed or non-branded front foils, as alternatives to the standard Beijer Electronics branded versions.

# **Powerful ARM** Cortex-A9 processor

Powerful dual or quad core ARM Cortex-A9 processor delivers

fast screen changes and program execution in demanding applications.

# Robust aluminum housing

Robust aluminum housing with IP66 front. Resistant to

direct rain, snow or high-pressure washdowns, dirt, grime and dust.

# **Extreme operating** temperature -30°C to +70°C

Extreme -30°C to +70° C operating temperature

range guarantees trouble-free use in the harshest environments.

#### Marine certifications

The X2 panels meet extended classes of marine certifications not normally carried

by HMIs, making them suitable for all onboard locations.

# Internal CANopen

It's easy to interface with controllers using the internal CANopen bus.

# SD memory card

Card holder and USB connection are located behind the lid on the back of the panel

for smart memory expansion, project backup and application loading.

# Dimmable backlight

Comfortable and safe operation in high and low ambient light conditions. Backlight is continuously

dimmable to very low brightness.

# **High brightness** display

All high-performance versions feature 1,000 cd/m<sup>2</sup> backlight

providing excellent readability in high ambient light levels such as sunlight.

# Add control by **BCS Tools**

BCS Tools is the CODESYSbased software platform enabling SC versions to

perform powerful integrated IEC 61131-3 PLC functionality. Just add remote I/Os for a scalable, cost-effective solution.

# **Certified for** hazardous environments

Certified for use in hazardous areas where

gases, vapors and dust are present.

#### Internal isolation

Internal isolation conforms to marine standards for both burst and surge immunity.

# **High vibration**

Panels are tested to 4 g RMS sweep sine for vibration and 40 g 11 ms half sine for shock.

# Panel mount

Panel mount versions hold IP66, NEMA 4X/12 and UL Type 4X/12 ingress protection

rating for the front and conform to ATEX Zone 2 and ATEX Zone 22 certification.

# Fully sealed

Fully sealed versions with M12 connectors with IP66 ingress protection rating and ATEX/IECEx Zone 2

and Zone 22 (IP65) certification.

# X2 web

# HMI panels with built-in HTML5 web client

The X2 web HMI panels within the X2 pro and X2 extreme families are perfect HMIs for enterprises and users who wants to utilize HTML5 web technologies in industrial environments. The X2 web HMIs offer visualization with Chromium Kiosk mode operation of single browser window web pages from SCADA systems, PLCs or other devices with built-in web servers.

The X2 web HMIs enable enterprises and users to visualize the same web content across different target platforms such as HMI, mobile, tablet, pc, etc. without any conversion or re-engineering. The X2 web HMIs have the same industrial grade quality hardware as the iX based X2 pro and X2 extreme HMIs offering extensive certification and environmental durability.

See page 30-31 for technical data.

# Features X2 web

# **HTML5** visualization

Perfect HMIs for enterprises and users who wants to utilize HTML5 web

technologies in industrial environments.

## Wide screen format

X2 panels offer wide screen format, designed to succeed the traditional 4:3 square aspect ratio.

# UL, CE, FCC and KCC certificates

The entire X2 range offers a strong standard certification with UL, CE,

FCC and KCC certificates.

# Custom design or non-branded

Profile your brand or go for neutral. X2 panels offer custom

designed or non-branded front foils, as alternatives to the standard Beijer Electronics branded versions.

# Powerful ARM Cortex-A9 processor

Powerful dual or quad core ARM Cortex-A9 processor delivers

fast screen changes and program execution in demanding applications.

# Robust aluminum housing

Robust aluminum housing with IP65, NEMA 4X/12 and UL Type 4X/12 front

(X2 pro web). IP66 front (x2 extreme web).

# Wide operating temperature

Operating temperature of -10°C to +60°C (X2 pro web) and -30°C to +70°C

(X2 extreme web) satisfies the demands of most industries.

## **Marine certifications**

The X2 panels meet extended classes of marine certifications not normally carried

by HMIs, making them suitable for all onboard locations.

# SD memory card

Card holder and USB connection are located behind the lid on the back of the panel

for smart memory expansion, project backup and application loading.

# Certified for hazardous environments

Certified for use in hazardous areas

where gases, vapors and dust are present (X2 extreme web).

#### Internal isolation

Internal isolation conforms to marine standards for both burst and surge immunity.

# **High vibration**

Panels are tested to 4 g RMS sweep sine for vibration and 40 g 11 ms half sine for shock.

# iX software - why you'll love our hardware

The iX software gives you smart communication tools. It combines top-class vector graphics and easy-to-use functions that provide reliable operation, and almost limitless connectivity to your other equipment.

# Efficient workflow

Speed up engineering in an intuitive development environment filled with shortcuts. Pre-styled objects, a customizable workspace, a component library and a smart property grid are some of the features that'll boost your workflow. Share your customized objects and advanced script modules with colleagues.

#### Complete HMI functionality

It's easy to get your application up and running. All essential functions you need are included such as data logging, recipes, alarms, trends and audit trail. Take advantage of ready-made objects with built-in functionality, vector-based symbols and graphics that can be easily inserted into the screen.

#### Functionality for advanced users

iX has support for .NET technology, providing options to design specialized functionality. Use C# scripting or .NET components. Take advantage of third party objects and import .NET assemblies to extend the functionality

further. Control and exchange data with multiple controllers and enjoy connectivity via FTP, OPC and web.

# Connect to all automation brands

An extensive driver list enables communication with hundreds of unique PLCs and automation equipment from all major manufacturers. Share information easily between users and have safe control of complex systems, even over long distances. Transfer files and control panels remotely with FTP and VNC servers.

If you are a Maker of Things, a machine builder or a provider of other technical equipment, your business runs on data. Data that can tell when your machines are running efficiently and indicate when you need to introduce maintenance or other measures.

> The threshold to accelerating into digital has never been lower than now, closing the gap between OT and IT.

**Get insights** 

with acirro+

Move your machine data to the

cloud with our fully IIoT ready X2

HMIs and BoX2 devices, and gain

insights to streamline operations.

from the cloud

Our X2 HMIs and BoX2 devices are now IIoT ready by standard and fully prepared to enable you to move your machine data to the cloud.

Easily set up a secure cloud connection and begin moving machine data to the cloud using our acirro+ IIoT platform. The solution is easy to implement without needing to rewire your existing installation or re-program an existing application.

Viewing machine data in visual dashboards gives you a great overview and provides insights to streamline your machine's operation, creating new business opportunities.

# **ACCELERATE TO DIGITAL NOW!**

# The safe and secure IIoT solution

#### Securely transmitted data

Your machine data is securely transmitted to the Beijer Electronics cloud using bank-level security SSL/TLS encryption.

# No unauthorized access

All communication from devices to the cloud is outbound. Devices are never visible on the public internet, minimizing the risk of unauthorized access.

# **Identified devices only**

All X2 HMIs and BoX2 gateways have an X.509 standard certificate tied to their serial number. Each device has a traceable, unique identity to identify just your devices in the cloud.

# Safe hosting

All data is hosted on Microsoft Azure with highly s ecure administration of organization, users devices, device groups, cloud tags, etc. via acirro+.

#### Download iX HMI software

Go to smartstore.beijerelectronics.com and try out the free demo version of iX.

Go to www.beijerelectronics.com/acirroplus and learn more about our cloud-based IIoT platform.

# A simple path forward

It's easy to upgrade your existing iX HMI solution

Hardware upgrade to X2 series

Use the migration tables to find the right panel when you want to upgrade your existing iX HMI solution to the X2 panel series.

## From iX HMI Industrial to X2 pro

iX HMI panel	X2 panel	Comment
iX T4A	X2 pro 4	-
iX T7A	X2 pro 7	-
iX T10A	X2 pro 10	Different cut-out size
iX T7B	X2 pro 7	-
iX T12B	X2 pro 12	-
iX T15B	X2 pro 15	-
-	X2 pro 21	-

#### From iX HMI Marine to X2 marine

iX HMI panel	X2 panel	Comment	
iX T7AM	X2 marine 7	-	
-	X2 marine 7 HB	-	
-	X2 marine 7 SC	New 7-inch panel with integrated control	
-	X2 marine 7 HB SC	New 7-inch panel with integrated control and high brightness display	
iX T15BM	X2 marine 15	-	
iX T15BM-HB	X2 marine 15 HB	-	
-	X2 marine 15 SC	New 15-inch panel with integrated control	
-	X2 marine 15 HB SC	New 15-inch panel with integrated control and high brightness display	

#### From iX HMI SoftControl to X2 control

iX HMI panel	X2 panel	Comment
iX T4A-SC	X2 control 4	-
iX T7A-SC	X2 control 7	-
iX T10A-SC	X2 control 10	Different cut-out size
iX T7B-SC	X2 control 7	-
iX T12B-SC	X2 control 12	-
iX T15B-SC	X2 control 15	-

#### From iX HMI TxF-2 series to X2 base

iX HMI panel	X2 panel	Comment
iX T5F-2	X2 base 5	-
iX T7F-2	X2 base 7	-
iX T10F-2	X2 base 10	-

iX application upgrade

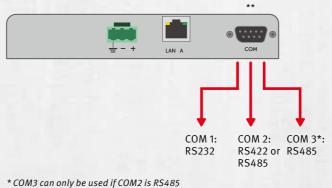

X2 panels are software compatible with iX 2.20 SP2 and forwards. Watch the video on www.beijerelectronics.com/X2 to see how easily you update an existing iX application to an X2 panel.

# Continues on next page ...

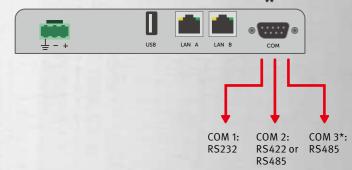

Serial port layout

# TXA TXB COM 1: COM 2: COM 3: COM 4: COM 1: COM 2: RS232 RS422 or RS232 RS422 or RS485 RS485 COM 3: COM 4: RS232 RS422 or RS485 RS485

# X2 pro 4 and X2 pro 7

X2 pro 10, X2 pro 12 and X2 pro 15

\*\* CAB150 splitter cable provides the connectivity for the three serial ports.

If you use COM3 for RS232 in TxA or TxB:

Change to COM 1

If you use 2 × RS485:

- Change COM4 to COM3
- COM 2 needs to be RS485

\* COM3 can only be used if COM2 is RS485

OPC DA communication

- OPC DA communication is not supported in X2 platform
- · Change to OPC UA instead

# ... continued from previous page.

Hardware upgrade to X2 series

# Use the migration tables to find the right panel when you want to upgrade your existing iX HMI solution to the X2 panel series.

## From QTERM-Ax to X2 extreme

QTERM panel	X2 panel	Comment
QTERM-A7 iX	X2 extreme 7	Different cut-out size
QTERM-A7 Qlarity	X2 extreme 7	Different cut-out size, new HMI software
QTERM-G72	X2 extreme 7	Different cut-out size, new HMI software
QTERM-A12 iX	X2 extreme 12	Different cut-out size, different aspect ratio
QTERM-A12 Qlarity	X2 extreme 12	Different cut-out size, different aspect ratio, new HMI software

#### From iX TxBR to X2 extreme

iX TxBR panel	X2 panel	Comment
IX T7BR	X2 extreme 7	-
ix t7BR HB HP	X2 extreme 7 HP	-
-	X2 extreme 7 SL HP	New 7-inch rugged fully sealed high- performance panel
-	X2 extreme 7 HP SC	New 7-inch rugged high-performance panel with integrated control
	X2 extreme 7 SL HP SC	New 7-inch rugged fully sealed high- performance panel with integrated control
IX T15BR	X2 extreme 15	-
iX T15BR HB HP	X2 extreme 15 HP	-
-	X2 extreme 15 SL HP	New 15-inch rugged fully sealed high- performance panel
-	X2 extreme 15 HP SC	New 15-inch rugged high-performance panel with integrated control
	X2 extreme 15 SL HP SC	New 15-inch rugged fully sealed high- performance panel with integrated control

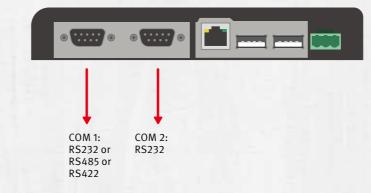

iX application upgrade

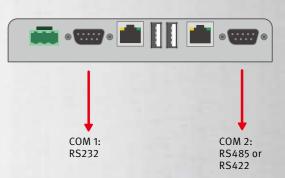

X2 panels are software compatible with iX 2.20 SP2 and forwards. Watch the video on www.beijerelectronics.com/X2 to see how easily you update an existing iX application to an X2 panel.

Serial port layout

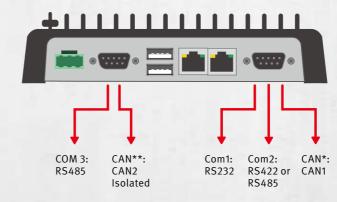

# QTERM-Ax

#### TxBR

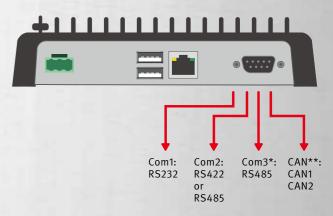

## X2 extreme x HP, HC

\*CAN1 can only be used if COM2 is not used
\*\*CAN2 can only be used if COM3 is not used

## X2 extreme x

\*COM3 can only be used if COM2 is RS485

- \*\*CAN1 can only be used if COM2 is not used
- \*\*CAN2 can only be used if COM3 is not used

OPC DA communication

- OPC DA communication is not supported in X2 platform
- Change to OPC UA instead

# **About Beijer Electronics**

Beijer Electronics is a multinational, cross-industry innovator that connects people and technologies to optimize processes for business-critical applications. Our offer includes operator communication, automation solutions, digitalization, display solutions and support. As experts in user-friendly software, hardware and services for the Industrial Internet of Things, we empower you to meet your challenges through leading-edge solutions.

Beijer Electronics is a Beijer Group company. Beijer Group has a sale over 1.4 billion SEK in 2020 and is listed on the NASDAQ OMX Nordic Stockholm Small Cap list under the ticker BELE. www.beijergroup.com
